

Durable Steel Construction

- Manufactured in the USA
- Made from rolled galvanized steel
- Powder-coated for tough, corrosion-resistant lifetime of use

Power & Design

- Ametek Lamb high airwatt 8.4" 2-stage tangential bypass motor provides powerful cleaning capabilities
- Long life motor; Approx. 1500 hours
- 14" diameter canister has improved filtration and is specially designed for the high airwatt motors.
- Utility valve on front of unit allows you to plug directly into the power unit

Inverted Bag Filtration

- Permanent inverted bag filtration

Power Unit Specifications

- 8.4" 2-Stage tangential by-pass motor
- Inverted Bag
- 38 Qt. Dirt Capacity
- DB Rating w/ Vented Exhaust: 68
- Power Unit Dimensions
 - Diameter: 16-1/8 in.
 - Height: 43-1/2 in.
- Up to total Sq. Ft. : 12,000

Motor Specs

Voltage.....	120
Max Amps.....	13.8
Max Airwatts.....	713
Airflow.....	142 CFM
Sealed Vacuum.....	147 "H ₂ O

Improve allergy and asthma symptoms

By venting your central vacuum system outside, you remove the dirt and allergens from your home. By ridding your home of these allergy causing irritants, you can improve allergy and asthma symptoms, as well as the air quality in your home.

Proudly manufactured in the USA since 1956

We strive to provide high quality steel vacuum systems at an affordable price. And, we are proudly made in the USA.
